

# **SUCCESS THROUGH OPPORTUNITY**

## Safeguarding

Burwell Village College Primary School is committed to the highest standards of safeguarding. We implement a number of rigorous and robust processes that gather and evaluate child protection-relevant evidence about any persons who may interact with pupils.

All employee, governor and volunteer posts are subject to satisfactory completion of an enhanced DBS check and evidence of proof of right to work in the UK. Once this has been verified, all adults must read the safeguarding policy and the DfE's Keeping Children Safe in Education document (KCSiE) as part of the school's yearly safeguarding training.

## OUR VISION

At Burwell Village College Primary School, we want our pupils and our staff to be curious, motivated, lifelong learners. We want them love coming to school because they love learning. We want them to look forward to tomorrow because they know that each new day will present new and exciting learning opportunities. We want to inspire our pupils and foster in them a thirst for knowledge and a hunger to develop new skills.

That begins from the moment they walk through the door into Early Years.

## OUR AIMS

Our goal is to immerse our pupils in our forward-thinking and inspiring learning culture so that each and every one is equipped with the skills, knowledge and experience they need to be active, engaged, confident members of society.

Three key principles underpin every aspect of our provision at Burwell Village College Primary School:

## **Inspiring Opportunities**

Every child should have access to the kind of experiences that enrich their understanding of the world and spark their curiosity to find out more.

## **Strong Foundations**

High quality teaching and learning should give children the in-depth knowledge and skills that will enable them to confidently move into each new step of their education.

## **Compassionate Citizens**

Supporting children to grow and succeed is about developing the whole child so that they become confident, resilient, independent learners who understand and have an impact on the world around them.

## Every Child is Unique

Each child who joins us at Burwell Village College Primary School has their own special mix of interests, personality traits, talents and life experiences that makes them unique.

We value difference. We welcome diversity. We encourage self-expression.

When brought together and shared, explored and understood, this is what helps us all to learn and grow into confident and respectful friends, neighbours and colleagues.

# **EARLY YEARS FOUNDATION STAGE**

**SUCCESS THROUGH OPPORTUNITY** 

Our new Reception building is purpose-built to enable the delivery of a high-quality, Early Years and Foundation Stage curriculum. The indoor environment has three learning pods for whole-class teaching; a large shared area for continuous provision and a separate area for painting and more messy activities.

Our Reception block also has it's own, large outdoor area that is an extension of the classroom with a covered area, mud kitchen and space for the children to develop their gross motor skills.

The school pond is right next to our Reception area and is a constant source of awe and wonder for the children.

## THE EARLY YEARS FRAMEWORK

The Early Years Framework is the statutory curriculum for children aged three to five. It:

- 'sets the standards that all early years providers must meet to ensure that children learn and develop well.
- ensures children are kept healthy and safe.
- ensures that children have the knowledge and skills they need to start school.'

(www.gov.uk)

## Areas of Learning and Development

## Prime Areas

- Communication and language
- Physical development
- Personal, social and emotional development

## Specific Areas

- Literacy
- Mathematics
- Understanding the world
- Expressive arts and design

## Early Learning Goals

The seven areas of learning and development above are further divided into Early Learning Goals (ELG) to enable Early Years practitioners to track children's progress.

### Communication and language

- ELG: Listening, attention and understanding
- ELG: Speaking

### Personal, social and emotional

- ELG: Self-regulation
- ELG: Managing self
- ELG: Building relationships
- ELG: Fine motor skills

### **Physical Development**

- ELG: Gross motor skills
- ELG: Fine motor skills

## Literacy

- ELG: Comprehension
- ELG: Word reading
- ELG: Writing

#### Mathematics

- ELG: Number
- ELG: Numerical patterns

## Understanding the World:

- ELG: Past and present
- ELG: People, culture and communities
- ELG: The natural world

### **Expressive Arts and Design**

- ELG: Creating with materials
- ELG: Being imaginative and expressive

## A CURRICULUM THAT INSPIRES CURIOSITY

## Explore. Play. Learn.

Reception is a fun place to be! There is so much see and do, to stimulate the children and spark their curiosity.

Through a combination of child-led, adult-led and adult-directed activities, both indoors and outdoors, the children develop their fine and gross motor control skills; learn about themselves and others.

Every day, the children explore a wide range of areas, which are linked to their current theme (the body, celebrations, mini beasts, etc.) and give pupils the opportunity to achieve the Early Learning Goals. Learning through play, the children do, modelling and construction; they create and participate in physical games and role play, as well as reading exciting books and retelling stories using puppets and props.

At Burwell Village College Primary School, we follow Jolly Phonics—a progressive phonics programme with songs, actions and images to aid the children's learning and retention. We focus on both reading and writing right from when the children first start school in Reception. The lessons are fun, inclusive and give our pupils the basic skills they need to access the rest of the curriculum.

## Reading

Anyone who loves reading knows that books open doors worlds and experiences beyond our wildest imaginations. Giving children the key to open those doors is one of the greatest gifts we can give them.

Our structured reading programme is designed to develop children's reading skills so that they are able access and enjoy a wide range of literature.

### Writing

Children's creativity in writing is unleashed by giving them the tools and skills to express themselves. This begins with strong teaching of phonics and fine motor control and is developed through opportunities to apply their skills in a range different contexts.

## Mathematics

Fun, engaging and carefully planned lessons enable our pupils to develop a deep understanding of number, shape, measure and pattern. With a vast array of maths resources and manipulatives, as well great use of our wonderful outdoor area, the children learn through practice and play.

## **SMOOTH TRANSITIONS**

Starting school is an exciting time but it also a really big step into the unknown so getting off to a good start is important. That's why we have a comprehensive transition programme in place.

We work with parents, carers and early years settings to make our new reception starters' first impressions of school positive and inspiring.

Prior to starting, the transition into Reception includes (all dates to be confirmed):

- Staff from early years and childcare settings share information about the children with Burwell Reception teachers.
- June 2022

   morning or afternoon session in school for new starters.
- One-to-one meetings with your child's Reception teacher take place during June/July 2022.
- New Reception starters come to us for a pre-school, morning visit in July 2022.
- Parents and children are invited for lunch with us in July 2022.

Once the children have officially joined the school, the transition continues with:

- Exploration of the school and where everyone is (staff and pupils)
- Parents' evenings in the autumn term and spring terms
- Transition day and 'meet the teacher' day in summer term ready to move into Year 1

(The transition process is subject to COVID-19 safety guidelines and regulations.)

# KEY STAGES 1 & 2

**SUCCESS THROUGH OPPORTUNITY** 

## SPARKING THEIR CURIOSITY

At Burwell Village College Primary School, we want our pupils to be curious, motivated, life-long learners. We want them love coming to school because they love learning. We want them to look forward to tomorrow because they know that each new day will present new and exciting learning opportunities. We want to inspire our pupils and foster in them a thirst for knowledge and a hunger to develop new skills.

That is why we have developed an exciting new curriculum offer that will deepen our pupils' learning across a broad range of subjects and beyond.

# A curriculum for the 21st Century

Fostering a love of learning.

Creating curious, motivated,
life-long learners

From history to drama, music to enterprising, and DT to social media, our curriculum will spark our pupils' imaginations and inspire them to want to find out more. With opportunities for self-guided projects, team activities and choice over what they study and when, our curriculum will prepare our pupils for success as they progress through the rest of their academic career.

## A LEARNING COMMUNITY

## NURTURING OUTSTANDING STAFF

Being an excellent teacher is not just about having the necessary skills, or understanding the pedagogy behind the role; it's a philosophy, a culture, a way of life.

If we want our children to be curious and have that hunger to learn, we need passionate teachers who are driven by a desire to learn and master their craft themselves. We need teachers who, every day, model acting on their curiosity and directing their own research; investigating and coming up with more questions; being excited about what they might learn next.

For that reason, half a day of continued professional development (CPD) is built into our curriculum timetable, every week, for all teaching staff.

#### TEACHERS WHO LOVE TEACHING

'Interest is a powerful motivational process that energises learning, guides academic and career trajectories, and is essential to academic success.' (Harackiewicz, et al. 2016)

We all know that we put more time and effort into the things we enjoy; we are more inspired to study topics that interest us. Acknowledgement of this is just as important for teachers as it is for pupils. When teachers are able to build lessons and units around their own interests, they feel a greater degree of personal investment in that teaching learning. That enthusiasm is abundantly clear in lessons and ultimately instills the children with the same curiosity and excitement—enthusiasm is contagious!

Our bespoke curriculum, whilst covering the National Curriculum objectives, allows for teachers to decide on the context within which those objectives are delivered. For example, Mrs Bradley (Year 6) has chosen to teach performance in the context of music through the decades, 1920s onwards, whereas Miss Beal (also Year 6) is teaching musical performance in the context of traditional musicals.

#### EFFECTIVELY MANAGING TEACHER WORKLOAD

A teacher's job is never done; there's always more to do so it's our responsibility to support our staff in the effective use of their time. One of the ways in which we do this is integral to the pupil choice element of our unique curriculum— teachers plan just one unit per year for each of art, DT, music and PE (KS1) or Cultural Capital (KS2). They then teach these units each term to different groups of children each time.

## A TAILOR-MADE CURRICULUM

It is important to us that our curriculum be bespoke to Burwell Village College Primary School—just as each one of our pupils is unique, so too is our curriculum offer. It has been designed using the knowledge and expertise of our own teaching professionals and leaders, all of whom bring together a wealth experience from a range of disciplines and backgrounds.

In line with our school values, our forward-thinking curriculum promotes and encourages curiosity, deep understanding and learning-ambition. The children's acquisition and mastery of key skills and knowledge are strengthened in their application across and between content, subjects and year groups.

## **English Reading**

The ability to read is one of the greatest gifts that we can give to children—it allows them access to worlds far beyond their reach and immerses them in experiences beyond their wildest imaginations. That is why the development of strong decoding and comprehension skills underpins our English teaching and learning.

With a large library at the front of the school, a mini library upstairs; small book corners in every classroom and high quality texts linked to every English unit, the children are exposed to an endless sea of reading materials.

## English Writing

Pupils' creativity in writing is unleashed by giving them the skills and tools to be able to express themselves. Through the study of different text types and authors, the pupils learn how to create detailed images in the reader's mind; how the careful choice of words can change the emotions experienced by the reader and how all of this, along with the skillful use of grammar, engages and captures the reader's attention.

## Phonics

At Burwell Village College Primary School, our phonics curriculum is tailored to our pupils and focuses on both reading and writing right from when they first start school in Reception. The lessons are fun, inclusive and give children the basic skills they need to access the rest of the curriculum.

#### Mathematics

Fun, engaging and carefully planned lessons enable our pupils to develop a deep understanding of number; become fast and fluent with their arithmetic skills and apply their mathematical knowledge to challenging reasoning problems. With a vast array of maths resources and manipulatives in all year groups, the children build strong visual representations of mathematical concepts and learn through practice and play.

### Science

Science at Burwell Village College Primary School is synonymous with excitement: from exploring the ecosystem of our school pond to discovering the origins of the species, our pupils have countless opportunities for investigation and child-led learning.

## Cultural Capital KS2

Every term, in Key Stage 2, pupils will choose from one of four Cultural Capital units:

- Enterprise
- Social Media
- Personal Research Project
- Drama

#### DRAMA

Pupils will develop their drama skills, working on voice projection and intonation, body language, facial expressions, timing and audience awareness. They will work as a group towards a shared performance at the end of the term.

## Enterprise

Familiarity with skills and concepts beyond the traditional school curriculum subjects is key to preparing children for life in the real world.

In their enterprise units, pupils will work on a community, charity or business project. Both in an individual capacity and as part of a team, they will work to a project brief, developing their ability to problem-solve, communicate professionally, think strategically, prioritise and manage their time.

#### Social Media

Children nowadays are not only exposed to social media but a large part of their lives play out over digital platforms. Therefore, it is vital that pupils are taught how social media can be used safely and positively to enhance their experience of the world.

In their social media unit, pupils will develop blogs, websites and TikTok posts to express their views.

## Personal Project

In their personal research project, pupils exercise a greater degree of choice over the topic that they choose to investigate and how they choose to present it. It's an opportunity for them to really get stuck in to learning around their own personal interests and apply all of the skills that they have developed while studying the rest of the curriculum.

## **BOOSTERS AND INTERVENTIONS**

Pupils who need extra support should not have to miss lessons to access that support, which is why we have dedicated, daily sessions for booster activities and specialised interventions built into our curriculum timetable. All of this support is delivered by teachers and trained teaching assistants so that pupils make rapid progress in the areas they need to.

## RICHNESS AND DIVERSITY

## Religious Education

Equality, understanding, tolerance, acceptance, respect—these are all qualities that underpin our ethos as a school and are strongly promoted through our RE curriculum. Our pupils learn about world religions and their beliefs as a basis to understanding others' perspectives and points of view. We believe it this understanding of others that will equip our pupils to be compassionate members of society.

## History & Geography

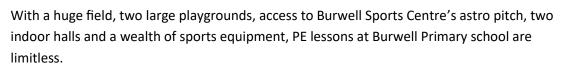

Through hands-on activities, engaging trips and visits, and interrogation of sources, pupils learn about our own and other civilisations, past and present. They will question, compare, debate, analyse and evaluate key moments in history and cultures that have shaped the world we live in today. They will learn about their own place in time and space, developing a deep understanding of Earth's rich diversity of people, places, resources, landscapes and environments.

## Computing

Computing and ICT are fundamental aspects of the world we live in today. Virtualisation, ambient intelligence and 'always-on social networking' will be integral parts of life and work for the next generation so we must ensure that our pupils are well-equipped to thrive and succeed in the new digital age. Pulling on its deep links with maths, science and DT, our computing curriculum teaches children about programming, computational thinking, data and, most importantly, safe and responsible use of information and communications technologies.

### PΕ

Physical and mental health go hand-in-hand, which is why our PE curriculum is a key part of our pupils' primary education. Not only will pupils work on their agility, balance and coordination within a broad range of sports, they will also develop their personal fitness, sporting intelligence, team work and individual sports techniques. They will also be able to swim 25 meters by the end of Year 6.

## Example Curriculum Timetables

Year 1		Monday	Tuesday	Wednesday	Thursday		Friday						
									1a	1b	2a	2b	2c
08:30	08:45	Register/Boosters					08:30	08:40	Register				
08:45	09:15	Number Fluency Assembly				08:40	09:45	Drama	RE	French	PE	ICT	
09:15	10:15	English											
09.15	10.15	English				09:45	10:00	Break					
10:15	10:30	Break				10:00	11:00	ICT	Drama	RE	French	PE

14:15	15:20	PE	Music	Geography	Science		13.10	14.13	rrendi	r'E	101	Dialila	INE.
14.13	15.20	7.	ividale	Assembly			14:15	15:20	RE	French	PE	ICT	Drama
							14.13	15.20	I NE	FIEIICH	PE	ICI	Dialila

## PUPIL CHOICE

Taking a degree of responsibility for their own study is an important part of pupils' development towards becoming proactive, self-directed learners— a skill which is vital in their later academic life.

For two afternoons each week, pupils will study units of their choice from a selection within art, DT, music and either PE (Key Stage 1) or Cultural Capital (Key Stage 2).

The children will choose three out of four available topics for each subject every year (one per term in each subject) with the selection of topics on offer being different in each year group. This means that the children can take ownership of their learning according to the development of their personal interests as the year progresses.

## Art

As well as gaining a broad appreciation of the work of eminent artists and cultures throughout history, our pupils learn and develop the drawing, painting and sculpture skills involved in creating pieces of art from a wide range of artistic movements.

Year 3		Monday	Tuesday	Wednesday	Thursday			
08:30	08:45	Register/Boosters						
08:45	09:15		Assembly					
09:15	10:15	English						
10:15	10:30	Break						
10:30	11:30	Maths						
11:30	12:00	Spellings						
12:00	13:00	Lunch						
13:00	13:10	Register						
13:10	14:15	Science	Art	DT	History/ Geography			
14:15	15:20	15:20	Cultural Capital	Music	Geography			
14:15		Assembly		iviusic	PE			

Friday										
		3a	3b	4a	4b					
08:30	08:40	Register								
08:40	10:15	PE	French	ICT	RE

13:10	14:15	ICT	RE	PE	French					
14:15	15:20	French	ICT	RE	PE					

## Design Technology

By the end of their primary education, pupils will be competent and confident in the range of skills that comprise the design, production and evaluation processes of design and technology (DT). Every year, the children will participate in three from a choice of four DT projects, including cooking and nutrition, structures, mechanisms and electrical systems, progressively building upon their DT skills each year within different contexts.

#### Music

Listening and appreciation, performance, and composition are the broad areas of study in music through which pupils will develop their knowledge, understanding and love of music. Each year, they will learn about different genres of music, a wide range of musicians and their impact.

## Trips & Visits

A wide range of off-site learning activities and events take place throughout the year to support and extend pupils knowledge and skills as well as to ignite their interest and introduce them to new topics. We also have themed days in school, which tie in to particular year groups' history or science units, such as Egyptian Day or Victorian Day. There are also sports festivals, sports competitions and the Year 6 residential trip.

#### Lunchtime

Children enjoy their lunch in our bright, spacious dining hall, choosing from a variety of options including school packed lunch, jacket potato, hot meal, vegetarian option or their own home packed lunch.

Lunch menus are on the school website and school-prepared lunches are paid for via our online system—Scopay.

## Uniform & Equipment

## Upper body:

- Navy blue polo shirt
- Navy blue sweatshirt or cardigan

## Lower body:

Black skirt, shorts, trousers or pinafore dress
 (No leggings, jeans, jersey skirts or dresses)

#### Footwear:

- Black flat shoes. No commercial logos. No boots
- Black socks

## P.E. Kit:

Navy blue t-shirt. (No commercial logos)

Water bottle (filled with water only)
