

5th June 2024

Dear Parents and Carers,

School Improvement Works

We have been in discussion with the local authority regarding some significant maintenance and improvement work throughout the school. Most of this work will be taking place in the summer holiday, however, the contractors are going to start some work prior to the holiday. The local authority is funding work to replace parts of the roof to the front (older) part of the school, replacing the tiled roof in current Key Stage 1 building, replacing old windows in Key Stage 1 and resurfacing the front car park.

From Thursday 6th June 2024 the front car park will be out of use as there will be a welfare office taking up the portion between the Phoenix Room and the disabled bays. The disabled bays will still be available for blue badge holders. Pedestrian access via the designated pathways will still be maintained. There is likely to be significant movement of equipment over the next couple of weeks around the school. We are working with the contractors to ensure that this is outside peak traffic times as much as possible.

Please be aware that as the front car park will be out of use for the majority of the half term most staff will be parking in the rear car park. This obviously reduces the capacity in the rear carpark. There may also be scaffolding, skips and storage in the rear car park further reducing capacity. If you, can please walk, cycle or scoot to school to reduce congestion in and around the school during this time.

We will keep parents updated with any changes or updates as we are informed by the contractors. Thank you for your help and co-operation.

Regards,

Antony Kern
Headteacher
