

Please use this form to demonstrate why you believe you would be a good house captain.

I wish you all the best in your application.

Miss Mansfield ☺

Please complete the following questions.

1. Why have you applied for the role of house captain?

I have applied for the role of House Captain because I want to help more and make a difference at Burnwell Village College.

2. What positive contributions have you made to our school since being a pupil here?

I often stay at school to help - at the moment I am helping in Miss Harvey's year 1 and 2 science club. Last year, I was a play leader. I always ~~volunteer~~ volunteer for things (Librarian) even if I don't get chosen. I am a good pupil - I have never had a red dot. I have taken part in some of the house competitions.

3. What do you think the role of house captain should be in school?

A House Captain should be a good role model for the school. They should be compassionate by helping others when they are upset, supporting people when they are stuck and be positive when things go wrong. They should be inquisitive by asking how they can make a difference. They should be aspirational by always trying to achieve more.

4. If elected as a house captain, what would you bring to the house team? Think about the difference you would want to make.

I will be supportive of fellow House Captains. I really like the buddy bench idea and I will support it. I want to bring new ideas. Earth came last last year so I want to be supportive and encourage my House mates. Even if we came last again we at least tried our best.

5. Write a response to the statement: 'What being a house Captain would mean to me'

Being a house captain would give me an opportunity to show leadership. It would be an experience that would help me to develop lots of different skills. I like to help people and being a House Captain would mean that I could do this more and make a difference to Earth and the school.
