Burwell Village College Primary

Composition – Theme Tunes Motif

A theme tune is a special piece of music that plays at the start of a TV show, film or cartoon to help you know what it is.

Representing Sounds

Sounds can be represented using pictures to show a repeated pattern. We can use these pictures to help us know how to play an instrument and our voice.

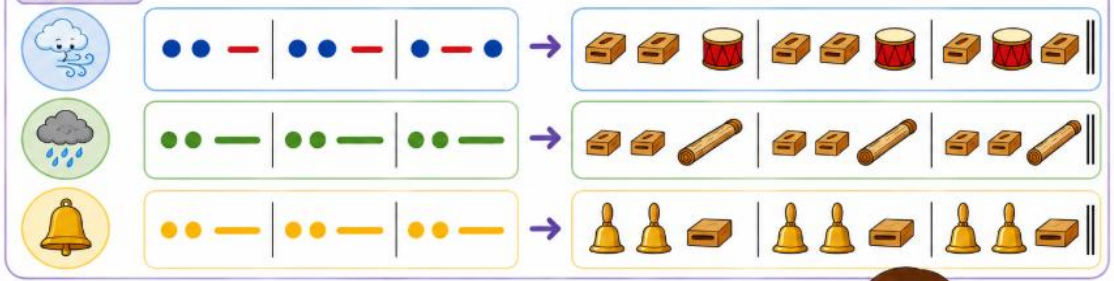

Representing Sounds Pictorially

1. Hear the sounds → 2. Represent with pictures

We hear different sounds.

Examples

We can use pictures to show sounds.
As we get better, our pictures show the sounds more clearly.

Key Vocabulary	
compose	put ideas together to create something
instrument	an object used to produce a sound or music
repeated pattern	a series of sounds that is played more than once
rhythmic pattern	a rhythm that repeats in the same way

When we make music, we can choose different instruments to create different feelings and sounds.

triangle

a bright, ringing sound

tambourine

a jingly, shaking sound

Djembe

a deep, thumping sound

Pitch

The pitch of a sound is how **high** or **low** the sound is.

Dynamics

The dynamics is how **loud** or **quiet** the music is.

Forte means loud. *f*

Piano means quiet. *p*
